

INSTALLATION INSTRUCTIONS

Part Number 33-2773

This filter fits: **See catalog for current listings**

FREE K&N DECAL** To register your warranty, please see us online at knfilters.com/register. **FREE K&N DECAL

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modifications will be required. However the following procedure **MUST** be followed to ensure a proper fit and seal of the K&N Air Filter.

INSTALLATION

- 1) Remove the stock filter from the airbox tray.
- 2) Gently place the K&N Air Filter into airbox tray, making sure it is fully seated.
- 3) Using the supplied K&N Sealing grease, lube the backside of the air filter tray cartridge, (Fig.1), to ease in the installation of the air filter tray cartridge.

NOTE: The lid will be a little harder to push close than with the OEM filter but will completely close with firm pressure.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
